SECTION 6.28 CROWN BUILDING WORKS CERTIFICATE – REF.1

Further to our engagement for the abovementioned project, please find attached the Crown Building Works Certificate, as required by Section 6.28 (formally known as 109R) of the Environmental Planning and Assessment Act.

In reviewing the content herein, we draw particular attention to both the design documentation listed and conditions of approval listed in this Crown Certificate.

The builder and the crown authority need to be aware of these conditions whilst undertaking the works, as they represent items that we shall either be focusing on in the inspection or be seeking installation certificates for on completion of the works, and it is the responsibility of the crown authority and builder engaged for the works to ensure these are complied with as part of the works.

Should you have any further enquiries please do not hesitate to contact Shane Berry.

Yours faithfully
